

# Introducing the University of Chicago Global Clinical Research Network

The Center for Global Health (CGH) at the University of Chicago is proud to introduce the **Global Clinical Research Network**. This network of Fellows aims to galvanize clinical research capacity in low-to-medium-income countries by offering sustainable clinical research opportunities.

## WHAT WE ARE LOOKING FOR

The Global Clinical Research Network is looking for researchers in Nigeria who are interested in conducting clinical trials in chronic non-communicable conditions and who are committed to actively engaging in clinical research in Nigeria. Fellows must work to partner with organizations that will continue to support clinical research activities beyond CGH's capacity-building mandate.

## AVAILABLE TRAINING

Principal Investigator Training  
Clinical Research Associate Training  
Site Monitor Training

## AVAILABLE SUPPORT

Clinical Research Site Support  
Site Support Partners  
Professional Development

- Fellows who successfully complete the program will be invited to join a local contract research organization, which will help them gain exposure to local and international study sponsors
- UChicago will work with local and international pharmaceutical companies to provide fellows with contract research opportunities

## HOW TO JOIN THE NETWORK AND BECOME A FELLOW

To become a University of Chicago Global Clinical Research Fellow, interested candidates will be asked to complete the Registration and Application process on the website in early 2013.
